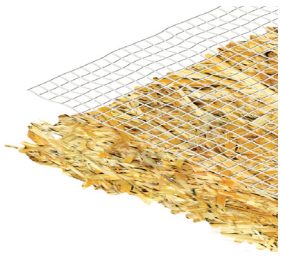
SR-1RG Single Net Straw Rolled Erosion Control Product

DESCRIPTION

Excel SR-1 Rapid Go (SR-1RG) temporary Erosion Control Blanket (ECB) is composed of 100% weed free agricultural straw matrix mechanically (stitch) bonded on two-inch centers to a single photodegradable, synthetic net. The netting of Excel SR-1RG ECB is treated to accelerate the degradation process. Recommended for applications requiring erosion protection for a period forty-five to ninety days. The material is fully degradable. The net and thread are photodegradable and the fiber matrix is biodegradable. Actual field longevity is dependent on soil and climatic conditions.



Each roll of Excel SR-1RG is made in the USA.
